PROTEIN SUPPLEMENT WITH GMP

- **ZeroTP enjoy GMP** is a concentrated protein supplement in powder form – based on the milk protein glycomacropeptide (GMP) – supplemented with the highly purified L-amino acids Alanine, Arginine, Aspartic acid, Glutamic acid, Glycine, Histidine, Leucine, Lysine and Tryptophan.
- Food for special medical purposes for use in the dietary management of Tyrosinemia.
- Suitable from 3 years of age.
- **ZeroTP enjoy GMP** presents a tasty alternative to a conventional amino acid mixture (AAM) in Tyrosinemia, but can also be used in combination.
- **ZeroTP enjoy GMP** has a slight amount of Phenyl-alanine and Tyrosine deriving from the natural raw material.
- **ZeroTP enjoy GMP** contains some carbohydrate and fat as well as fibre and is enriched with vitamins, minerals and trace elements.

ZeroTP enjoy[10] GMP – concentrated & balanced

GMP – NATURALLY LOW IN PHE AND TYR

- GMP is the natural protein source in **ZeroTP enjoy GMP**. During the process of cheese making through rennet clotting this peptide is released from casein and passes into the liquid whey. From there it is isolated and purified by means of special technological processes.
- Pure GMP is initially free from Phenylalanine and Tyrosine, during the production process however, it receives a slight contamination with Phe and Tyr – that's why **ZeroTP enjoy GMP** contains a small amount of Phenylalanine and Tyrosine.

HIGH BIOLOGICAL VALUE

- Some indispensable and conditionally indispensable amino acids (e.g. Arginine, Histidine, Leucine and Tryptophan) are not or almost not present in GMP, the natural protein source in **ZeroTP enjoy GMP**. These amino acids are added to **ZeroTP enjoy GMP**: Therefore **ZeroTP enjoy GMP** is a protein supplement with high biological value.

1 sachet ≙ 10 g protein eqv.

FOR THOSE WHO LIKE TO GET A BIT "MORE"

- Since **ZeroTP enjoy GMP** contains energy and some Phenylalanine, it can be taken independently from a meal.
- The GMP contained and the milkshake-like consistency of **ZeroTP enjoy GMP** create a good feeling of satiety and palatability.

EASY TO HANDLE – IN PORTION SACHETS

- Packed in portion sachets. Simple in use – without scale or scoop. Fill water into a shaker and add the contents of 1 sachet **ZeroTP enjoy GMP**. Shake – and your palatable milkshake-like drink is ready!
- We recommend following amounts of water:
  80 - 100 ml + 1 sachet **ZeroTP enjoy[10]**
  Can also be prepared with more or less water, as requested. Always prepare freshly!
- Easy for calculation – no scale nor scoop needed:
  1 sachet **ZeroTP enjoy[10] GMP** ≙ 10 g protein eqv.
- Simply convenient wherever you are – ideal for all your activities: e.g. at play, school, job, leisure and sports.

DOSAGE/USE

- The daily total amount of protein supplements (GMP-based or AAM) depends on age, body weight and individual medical condition/ protein tolerance and is determined under medical control.
- The total amount should at best be taken in 3 - 5 single portions during the day.
- The daily dosage of protein supplements can consist either exclusively of **ZeroTP enjoy GMP** or of a combination of several protein supplements suitable for use in the dietary management of Tyrosinemia. For that a number of products from the ZeroTP-system are available.
- The diet requires an adequate supply of energy, natural protein and other nutrients.

FLAVOUR

neutral – mild and pleasantly neutral

ZeroTP enjoy[10] GMP – simply delicious

Important Notice Must only be used under medical supervision. Not for use as a sole source of nutrition. For enteral use only. Only for people with proven Tyrosinemia. Suitable from 3 years of age.
