

sphere™

PKU sphere™ is Vitaflo's first GMP-based protein substitute, specifically designed to optimise adherence. PKU sphere is:

- * The only GMP-based protein substitute to be evaluated long term in children and teenagers¹.
- * Suitable from 4 years of age.
- * Available in three flavours - Vanilla, Red Berry and Chocolate.
- * Available in two pack sizes - 15g and 20g PE pre-measured sachets.
- * Low in volume and designed to support an overall healthy dietary intake by avoiding excess calories and sugar.

Vitaflo is proud to be a sponsor of this SSIEM Virtual Symposium Day on Thursday 3rd December.

Visit our virtual stand...

to find out more about PKU sphere and our comprehensive range of products for Inborn Errors of Metabolism.

Join us for our symposium...

on Glycomacropeptide (GMP) and Bone Health at 12-12:30pm (GMT).

Presented by guest speaker Anne Daly, Metabolic Dietitian, Birmingham Children's Hospital, UK and chaired by Prof. Dr. Freisinger, Head of the paediatrics department and the metabolic centre, Klinikum Reutlingen, Germany.
